Marvellous Marlie

Adopt Me!

Description

Marlie is a super confident, playful 12 week old bull terrier cross puppy. She loves to play fetch and tug, and gets super excited about toys, especially ones with rope or squeakers! Marlie loves playing chasing with her much bigger foster fur-siblings and likes to sometimes try her hand at being the boss of them. She enjoys a snuggle next to (or on) the other dogs and is very friendly with the cats (even though they don't seem to want to play with Marlie!)

Marlie really likes to have company, either human or furry. She is learning to wait patiently when her foster humans leave the room and is beginning to understand they will come back. And when they do, she greets them with so much enthusiasm, even if it was only a trip to the bathroom! As such, she would be suited to someone who is home regularly during the day or has another dog for company. Speaking of fur- siblings, since Marlie does like to try and be the boss, she would make a good companion for a calm, friendly medium to large size dog.

She is starting to get the hang of toilet training and can hold on all night. During the day she will go outside as soon you open the door she goes out & does her business but being a baby understandably she still has the occasional accident inside. Marlie can sit and stay and almost has the hang of drop and shake hands. She is an incredibly affectionate and playful pup who will make a wonderful addition to any family.

Name: Marlie

Breed: Bull Terrier x Staffy

Age: 12 weeks old
