Fearless Leeloo

Adopt Me!

Description

Leeloo is friendly and fearless! Despite her size, she isn't afraid of anything and enjoys following the vacuum or the hose around. Leeloo loves playing with her older foster brother but often needs a time out, either sleeping on top of her foster brother or cuddling on the couch with her humans. Leeloo is still learning but she has mastered the art of sitting and giving puppy eyes. She is used to playing outside during the day so is still working on her toilet training but does enjoy the company of humans and being inside with them. If possible, she would love to have another doggy friend to play with. Leeloo will be the perfect addition to any family as she will make you all fall in love with her instantly!

Name: Leeloo
