Naturally Shed Deer Antlers

Wholesale

Description

Are you interested in wholesaling our naturally shed deer antlers?

Our antlers are Australian in origin and sustainably sourced from Red and Fallow deer farms throughout South Australia, Victoria and NSW. Deer naturally shed their antlers each year. Once shed, the antlers are collected, heat treated, cut and smoothed to suit.

If so, we'd love to hear from you!

To get in touch you can email the team at admin@puppygogo.com or give us a bell on 0412 052 915.
