Home Environment Dog Boarding

Pet Services

Description

We are a home-environment dog boarding. We have our first dog named Chanco (beaglier) from rescue shelter and we know he had gone through stress of being in kennels waiting for his forever home. The thought of putting him back into the kennel when we need to go on holiday is just unbearable. This is why we decided to provide a home-environment dog boarding – which means that your dogs will stay with us like they stay at home with you. They will have TLC cuddle with us, watch TV on our lounge with us, walk daily and have access to our spacious decking area and back yard. They will be absolutely spoilt rotten.
