Pet Feeding and Dog Walking

Products & Services

Description

Lonely Pets Club is a fully insured pet care company offering a network of police and reference checked, local animal loving, professional pet carers.

Lonely Pets Club operates in Melbourne and Perth.

Lonely Pets Club believe that pets experience less stress by staying at home.

Don't board your pets when you go away; just leave your pets in the comfort of their own home and we will visit to feed, walk and cuddle them. If you're too busy to walk your own dog, we also provide a regular dog walking service.

We are a one stop, mobile pet feeding service. We really do care when you're not there!

Starting in 2003, we now boast over 440,000 visits worth of pet care experience. Lonely Pets Club is Australia's largest and most experienced pet sitting company, preferred and recommended by many vets and pet professionals. Please visit our website to view hundreds of testimonials from happy members.

We look after all types of pets including dogs, cats, chickens, ducks, birds, reptiles, mice, rats and fish!

Whilst caring for your pets, we can bring in your mail, put out your bins and water your plants (when water restrictions allow).

You get to meet with us before your first booking, so the decision to employ us is 100% your decision.

Service quality and reliability guaranteed (see website for details).

We also treat our staff legally as employees and not sub contractors. Franchises are available Australia wide.
