Rachael's Pet Sitting

Pet Services

Description

Services

Rachael's pet sitting offers the service of minding your pets in my own home. I cater to both short and long term stays for various types of animals. I am able to look after animals that require medication and/or have disabilities/special needs.

Dogs are taken on daily walks and have access to a very secure backyard. All animals are inside at night time, with cats and dogs given free roam around the house. Rodents and rabbits are given time in a playpen daily to ensure no boredom and that they receive a good amount of exercise.

Animal limitations

I only look after vaccinated cats and dogs and only small/medium dogs.
